

Appendix C: References

Following are selected major references used in preparing this report. See the online version for links to more references and background information.

<http://progressreport.cancer.gov>

The data referenced here will not always match the data in the *Cancer Progress Report*. That is because most of this report's data were age-adjusted to the year 2000 standard population in order to be compatible with data presented in Healthy People 2010.
